

**Achievements in 2020**  
**Key priorities for 2021**  
**Climate Change, Environment and Health**

**Objective 1. Institutional capacities are strengthened to effectively integrate climate risks and adaptation options in health sector planning and implementation**

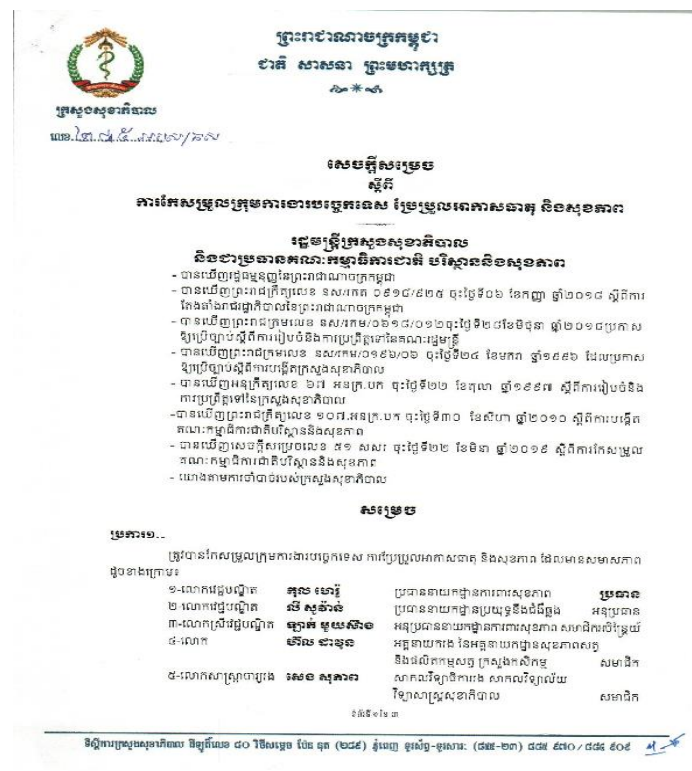

Team: NHL

Dr Yel Daravuth, Technical Officer

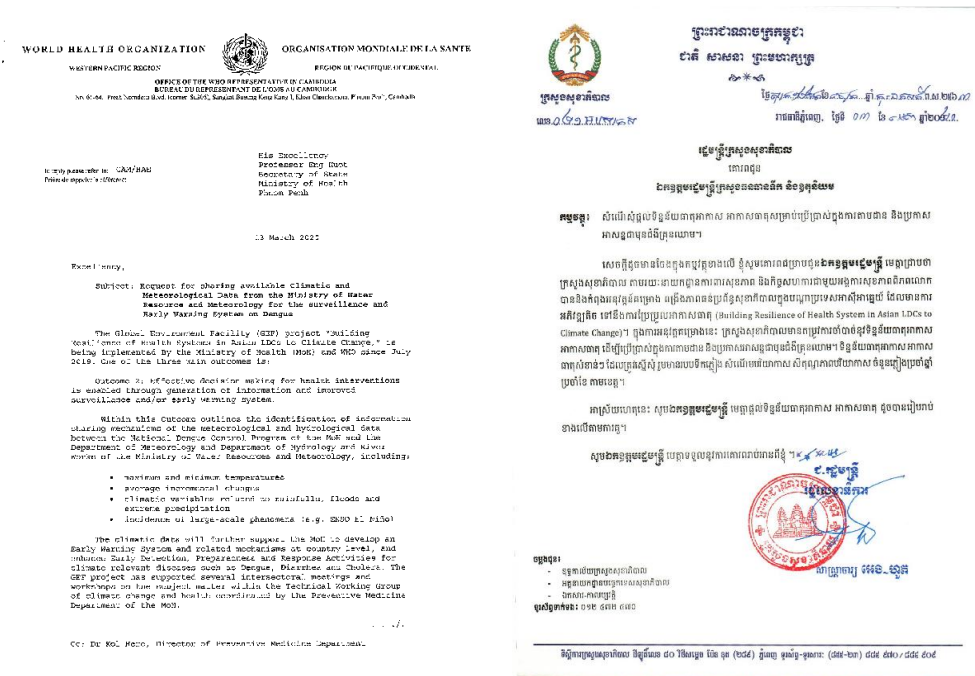

26 January 2021, Cambodia

# Achievement 1- National TWG on CC&H

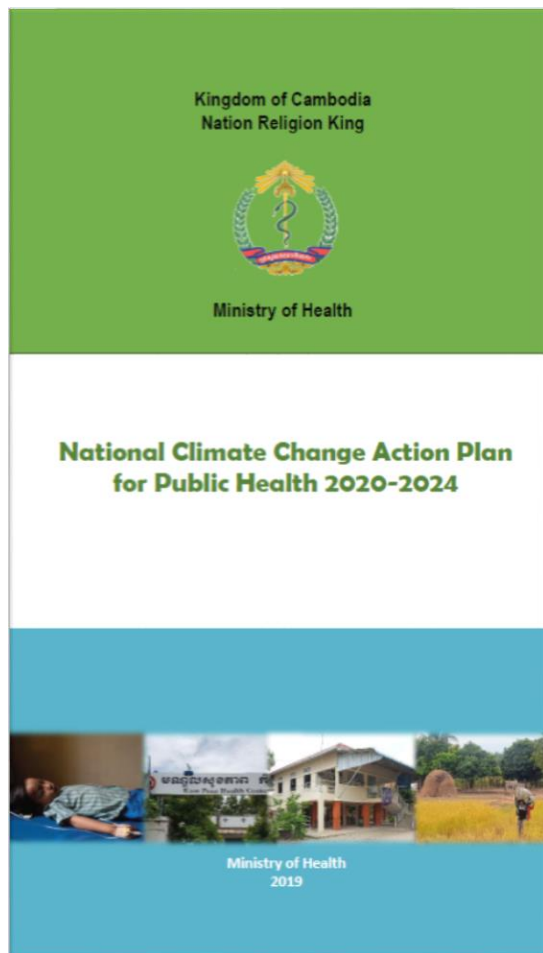

National level TWG for Climate Change and Health (CCC&H) has been established.

MOU on data sharing between MoH and MoWRAM signed on 29 April 2020

# Achievement 3-National Climate Change Action Plan for Public Health 2020-2024

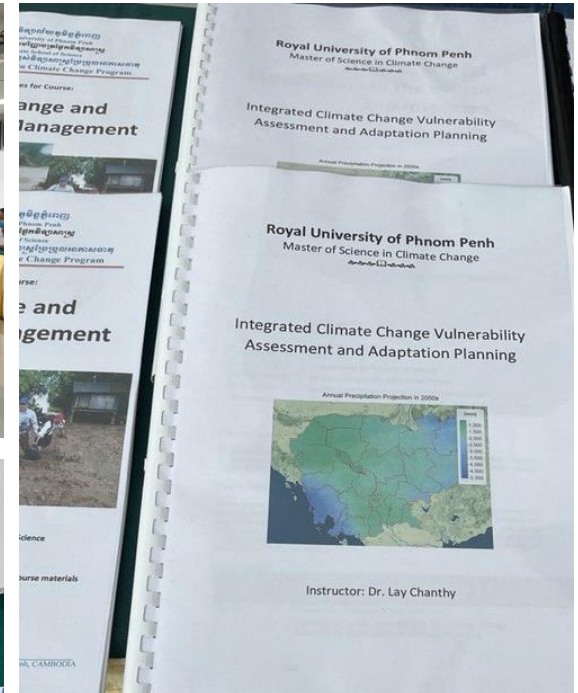

- The H-NAP, National Climate Change Action Plan for Public Health 2020-2024 has been officially endorsed and signed by the Secretary of State of MoH on behalf of the Royal Government of Cambodia.

## Achievement 4-CC&H integrated into MSc Program and Health Education Textbooks

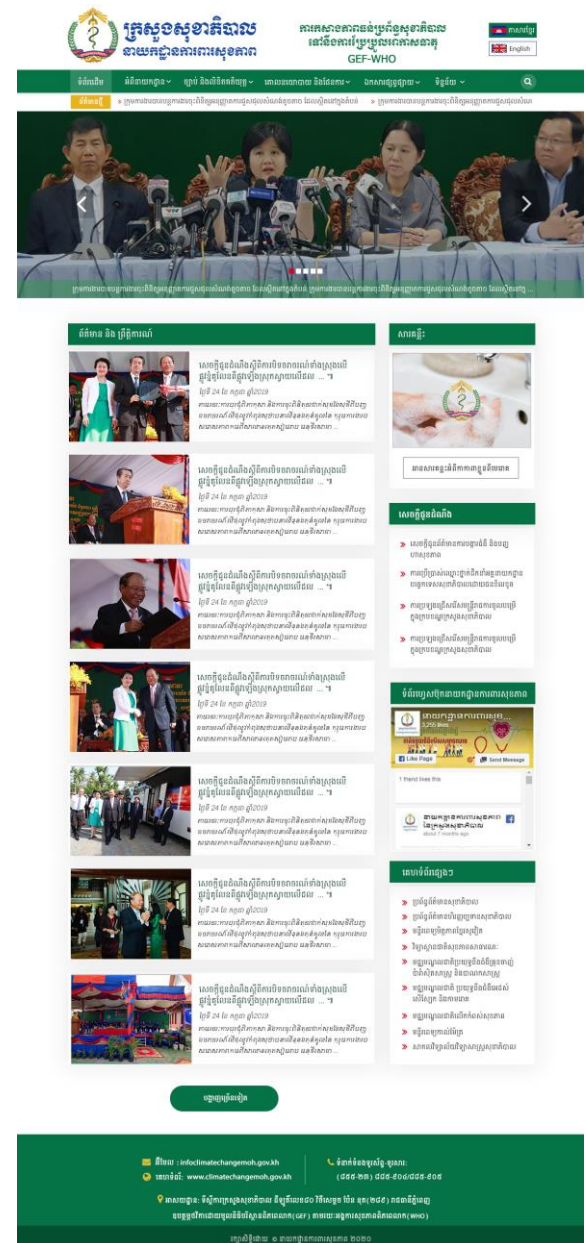

- Climate Change & Health has been integrated for MSc. in Climate Change program of Royal University of Phnom Penh (RUPP)
- The Health Education Textbooks on Climate Change and Health Environment for teachers and student grades 2, 5, 8, 10, and 11 are completed and approved by MoEYS.

# Achievement 5-CC&H website

- Website on Climate Change and Health has been developed for PMD MoH:  
<http://www.climatechange.gov.kh/>
- 10 climate sensitive diseases has been updated in the website.

<http://laravel temporary view.com/who/>

## **Lessons learnt and recommendations**

- Continued engagement the CCH Technical Working Group in supporting the implementation of GEF planned activities to meetings/workshops related to Water, Sanitation and Hygiene (WASH) and climate resilient Water Safety Plan (CRWSP)
- CCH TWG contributions in assisting GEF in conducting assessments and their provision of feedback/recommendations are essential in the development of Climate Resilient Water Safety Plan for both health centers and communities.

# Priorities 2021

- **Objective 1: Institutional capacities are strengthened to effectively integrate climate risks and adaptation options in health sector planning and implementation:**
- Capacity building sessions for key national and provincial staff of MoH on climate change and health (PMD).
- Data analysis capacity with National Dengue Control Programme (CNM).
- TWG on CC&H annual meeting to review workplan and TWG on CC&H quarterly meetings (PMD).
- Monitoring and following up of implementation of postgraduate curriculum on climate change and health for MSc in Climate Change Program (RUPP).
- Ensure a proper functioning PMD MoH Website on CCH with timely update and uploading materials on CCH
